clety and the Tenement-House Department are preparing to take the field. Both organizations have made exhaustive reports to show that the rise tions have hurt the poorest classes. class and high-class flat-house districts. The higher rents have been exacted in the most congested tenement sections of Manhattan. The rise during the year has been from 20 to 40 per cent.

chiefly by increasing population. trembudous 'inflow of linmigrants has filled old tenement districts far beyond their proper queacity. During 1806 the number of allens who came through Effix Island was 1,055,831. More than 200,000 sattled in New York.

Must Live Near Their Work.

Although the immigrant districts have been overflowing and driving out population from neighboring centres, the spread of such districts has been restricted, by two factors. One is the natural clannish tendency of the immi grants, the other is the necessity of the tenements population to live within walking distance of factories which give employment.

Both the Charity Organization and the Tenement-House Department investigations show that no real relief can occur until the factories in which the work can be scattered more widely. It has been shown beyond question that people in the most crowded tenement districts rather make their homes near their work than to live at a distance where rents are cheaper. If

of domestic employment.

"Such measures as these may be a west side, from Greenwich Village to Sherman square, gestion, and thus reducing rents, than any measures directed more specifically floward limiting population in a given area or the artificial increase in the number of buildings."

WICS RINCHAM'S HOME

To Scatter the Factories.

If the friends of the poorest rent-paying classes can get legislation to ment the number of factories in tene-ment districts they believe that all r-w factories and some of the old ones will seek sites in outlying districts or in other parts of Manhattan where there is more room for tenement population.

The movement would scatter that the factories as the people would be distributed over it a far wider area, the congestion would be leading from the water-tank on the scale of Brooklyn, is being studied carefully. As soon as factories and damage amounting to several thousands of the factories as Brownsville will be established in substituted over the outskirts of Brooklyn, is being studied carefully. There could be no mistaking the opera for anybody's but Puccini's. It carried all the extensions of "La Boheme" and "Tosca," and the score followed the familiar story by the Abbe Prevoat, with the same degree of faithfulness as in both of them. A SIMPLE MIXTURE

SAID TO RELIEVE RHEUMATISM,

Thousands of men and women who have felt the sting and torture of

this dread disease, which is no respecter of age, persons, sex, color or rank;

will be interested to know that while for many years rheumatism was con-

sidered an incurable disease, now it is one of the easiest affictions of the

human body to conquer. Medical science has proven it not a distinct dis-

ease in itself, but a symptom caused by inactive kidneys. Rheumatism is

uric acid in the blood and other waste products of the system which should

be filtered and strained out in the form of urine. .The function of the kid-

neys is to sift these poisons and acids out and keep the blood clean and

pure. The kidneys, however, are of sponge-like substance, the holes or

pores of which will sometimes, either from overwork, cold or exposure be-

come clogged and inactive, and failing in their function of eliminating these

poisons from the blood, they remain in the veins, decompose and settling

about the joints and muscles, cause the untold suffering and pain of rheu-

matism and backache, often producing complications of bladder and urinary

The following simple prescription is said to relieve the worst cases of rheumatism, because of its direct action upon the blood and kidneys, reliev-

ing, too, the most severe forms of bladder and urinary troubles: Fluid

Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Com-

pound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle

and take in teaspoonful doses after each meal and at bedtime. The ingre-

dients can be had from any good prescription pharmacy, and, being entirely

vegetable, are absolutely harmless and safe to use at any time.

AND ANYONE CAN PREPARE IT.
